A DOUBLE VICTORY FOR THE COLLEGE

BOYS AND GIRLS TEAMS WIN SATURDAY NIGHT

LOCAL GAME A THRILLER

After Two Extra Periods Warrensburg Mules Lose 29-25—Girls Defeat K. C. Y. W. Team, 41-11

"Good-bye Mules with your old heehaws!" With a kick weaker than Bevo, the once mighty Mules have sulked back to their Warrensburg stables, humbled and shorn of their power. And the wobbly Bearcats, but wobbly no more, are perched on high, thrilled with newly found power and pacing their lair for fresh victims.

When the smoke of battle had died away, the dying groans of the Mules whiffed out, and the victoriuos snarls of the Bearcats subdued, it was announced that the final tally of the ferocious fray was 29 to 25. But the big crowd in the High School gym Saturday night didn't wait for the official score—they knew what it was—and swarmed onto the court to give vent to the wild ecstasy that tingled through every nerve.

To top off the basket ball menu for the evening came the news from Kansas City that the S. T. C. Kitycats had upheld their fair names by taking the Kansas City Y. W. girls into camp to the tune of 41 to 11.

When one team, with a pair of forwards that don't know how to miss, goes into a game against a team that isn't so good, there can be but one outcome. This outcome came when the Kittycats met the Y. W. girls. Miss MacLeod's team was just to much for its opponent and point after point counted up as the two forwards shot from all angles of the court. Both were right. Miss Garten counted 11 times from the field and three times via the free throw route. Miss Raines dropped six through the wicket from the field and one on a donation shot.

In the second half Miss MacLeod inserted an entirely new team with the exception of her jumping center. Evelyn Raines, a substitute forward, made one field goal and one free throw in this half. The first half had ended the score 38 to 5 in favor of the Maryville girls.

The line-up that started the game was M. Raines and Garten, forwards; McNeil and Miller, centers; and Kennedy and Pugh, Guards. The substitutes were E. Raines, Gile, Thompson, Hardwick and Neal.

The game was refereed by a Miss Bey of the Y. W. C. A. Eugene Cummins, formerly of Maryville, was timekeeper. The game was played in the Y. W. C. A. gymnasium.

Quite a number of former Maryville people witnessed the game. Among them were Mr. and Mrs. H. P. Swinehart, formerly of the State Teachers College faculty.

The team returned to Maryville last night on the 8:25 Burlington train.

But to get back to the game here, Maynor's men were almost taken off their feet at the start of the game with perfect shots from center by Fisher and Williams. But they doggedly fought on, sometimes tied, and sometimes a few points behind, until the half whistle found them trailing on a 15 to 10 score.

The determined Bearcats started the second lap with a rush, tallying nine times to Warrensburg's four counters. They knotted the count at 17 and again at 19, when the time whistle called them to halt. An extra five minutes session was necessary. The crowd came to its feet, and every nerve was tense as the ball was put into play.

They hold their breath when the ball goes into Warrensburg territory and hope is expressed on every face as the sphere comes back to the Bearcat goal and someone shoots. Leech gets over-anxious in his guarding and is fouled. Girls shut their eyes as Williams flips the ball. It rises and drops squarely through the loop. A one point lead. Then Lyons, scrappy Mule guard, gets too anxious and holds Leech. Ellis takes the gift shot and slips it through the meshes before the crowd can catch its breath. 20 all. The ball see-saws back and forth down the court, but Miller escapes his guard and slips in a counter. The lead didn't last long for Fisher gets through and drops in a clean one and the whistle blows. Again the tally is tied, this time at 22. Another

STAR WITNESS AT BASTROP IS FOUND

HAROLD L. TEEGERSTROM APPEARS ON STREETS TODAY

ABSENCE UNEXPLAINED

Youthful Witness Refuses to Answer Questions—Will Appear Before Grand Jury

Bastrop, Jan. 29—Harold L. Teegerstrom has been found. Today the missing witness in the hooded mob murders of Morehouse Parish, for whom a countrywide search had been made, appeared on the streets of Bastrop today as though nothing had happened.

No stir of excitement was shown over his coming. He drove into town greeting his friends as though nothing out of the ordinary had happened. No questions were asked him other than how he had been getting along. After remaining in town for a short time, he left to call on his father and brother, who had shown no worry over "his welfare."

When asked as to his whereabouts during the past few weeks, he refused to answer any questions and said he would not be interviewed. He is thought to have information contrary to the "one-side hearing" and he will keep it until the grand jury convenes. Then he is expected to testify in behalf of T. J. Burnett, now facing a murder charge in connection with the murders of Watt Daniels and Charles Richards.

Friends of the star witness momentarily expect his arrest as a result of a warrant issued for him during the hearing.

LARGEST CIRCULATION IN NODAWAY COUNTY

THE ART OF HEAD WRITING.

Writers of newspaper headlines, through exigencies of type limitations, have contributed largely to the English language coloring, or, at least, to the coloring of the English language as it is spoken in America. And though many of the pet words never will be found in the mouth of the average man, many a word, hitherto of a jocose reputation, has been raised to an accepted standard of fitness if not actual dignity of expression. The newspaper headwriter may be, and often is, quiet and wearied and annoyed at the necessity for sweeping and stereotyped succinctness as the average reader who daily absorbs "probe" and similar good and faithful standbys.

Consider, for instance, the case of the Daugherty ruling against the use of liquor aboard ships. A headwriter is limited by the number of letters and spaces in a given line—usually ranging from 13 units to 18 or 19. "Liquor" frequently was too long a word in the combination of words necessary to sum up the body of the article in two lines of caption. Timidly he turned to "rum," a good enough word in itself but from past usage rather meaning something more than liquor itself. But the word suited the occasion and day by day it crept into the headlines. "Hootch" had served its purposes in another phase of the liquor controversy. And so "rum" has come to be accepted as a synonym for "liquor" though all liquors are not "rum" strictly speaking.

No headwriter ever hoped or intended, rather is it the opposite, that his use of "youth" and "slain" and such nice little aides-de-camp ever should get into the mouths of the "mob." Both are goods words, however, in newspaper making because they are handy and expressive, "eye" words and maybe justified for no other reason. A "youth" implies something more than a "boy" and a little less than a "man" as measured in terms of years. Hence, they are descriptive and accurate.

No, newspaper headwriters do not talk in the language they sometimes employ in their headwriting. And if one doubts their judgment, when he has left off reading this, just let him try to write two lines of 30 point Gothic, says 16 units to the line, and tell if he can what this is all about.

A concerted effort, sponsored by various associations of automobilists, is afoot, to unify the existing systems of road signs. It is a commendable movement and should be accorded wide support. In almost every state of the union different types of warnings for intersection roads, railroad crossings, curves, etc., are displayed. The plan under consideration would standardize all this so that a railroad crossing in any east would be marked in exactly the same manner as a railroad crossing in the west. The need for the reform is obvious.

There are two classes of citizens in every town—those who help make it grow and those who don't. To which class do you belong?

RELIGIOUS SECT PREDICTS END

PRESENT ORDER WILL BE WIPED OUT BY 1926.

FINO REFUGE IN OZARKS

Colony Grows So Fast That Special Quarters are Built for Them.

Gilbert, Ark., Jan. 29.—Civilization will be wiped out of this world by 1926 through strife that will start in April of this year.

Capital and Labor will begin the great catastrophe to the world in the spring of 1923; the religious war between Protestants and Catholics will also pick up the war cudgels, and civilization will be effaced from the world in about two years' time.

Speaking from this point, the uppermost heights of the Arkansas Ozarks, the most unusual religious seet in America make the foregoing predictions.

The members of this sect, known as the Incoming Kingdom Missionary Unit, will be hidden away from the rest of the world so far that they will not be drawn into the great conflict and will be saved to start things anew, just as Noah was saved when the Lord saw fit to destroy the land by water.

Mayor Is Member.

D. O. Dennis, mayor of this town, is one of the most prominent members of the unit. He has received thousands of letters from all parts of the country regarding his sect, in addition to which he recently published in a paper issued by his church the following:

"Note that the Lord has always preserved a remnant from every crisis in all past judgments to work out His plans. Also note that, according to His plans, only those who are willing to do His will today will be saved from the destruction of all the corrupt institutions in this generation.

"We have no inducements to offer people to join with us in this work. All that the Lord expects one to do is to study His work for himself. Then—when you see that He has set His word up in systems and that He has foretold all past and all future, as well, and that He has a special work for his people to do at the present time, as He did in the days of Noah—you will be ready to invest all that you have and all that you are in the work of helping to build the Kingdom of God on earth."

Population Grows.

The population has been so greatly increased during the last six months that members of the sect have been elected to fill virtually every important office in the little city. As a result there are no blue laws enacted to govern the town.

Churches have been built. School buildings are now either in use or under construction. Many homes of the permanent type have been and are now being constructed. A printing shop has been built and is completely equipped.

Units similar to the one here have just been established in West Virginia, Oregon and Washington. Two hundred new members are expected to settle in the local colony within a month. One of the largest projects of the Gilbert Colony is to establish a sanitarium on Star Mountain, a few miles distant.

LEGISLATURE SETS RECORD FOR KILLING MEASURES

Jefferson City, Mo., January 29—More bills are being killed in committee at this session of the Legislature than at any previous session, according to members of the House and Senate who have served in preceding legislatures.

Out of approximately 351 bills introduced in the House less than twenty-five have been engrossed.

A bill introduced by Representatives Lay and Lorts providing for the reduction of railroad passenger rates to 2½ cents a mile was considered by the Railroads Committee late today. It will be reported unfavorably Monday.

As railroad rates are fixed by the United States Interstate Commerce Commission the bill would have been of no effect if passed by the Legislature.

The Horse Blew First.

After giving the new stable-boy directions for treating a sick horse, the master returned in a little while to see if all had gone well.

He found the stable-boy choking and spluttering, his face various hues of red, blue and green.

"What's wrong?" said the boss.

"Well, you said to put a tube in his mouth and blow the powder down.

"Yes."

"Well, he blew first."—From Everybody's Magazine for February.

Referee Scott calls the men to position immediately and puts the ball in action. Time out. Ellis is hurt. This is the fourth time out for Maryville and Warrensburg gets a free throw—and makes it. Then Miller, Bloomfield and Leech come down the field at terrific speed. The onslaught results in a goal by Miller. The scorers hardly had time to mark down until Ferguson, substituted for Fisher, drops in a long one for the Mules. Warrensburg in the lead. The ball is tossed up. Held ball again? No. Leech squirms out of the melee, dribbles, pivots and shoots. Two points. Score 26 to 25 in favor of Maryville. Time is almost up and both teams fight like mad dogs. In the desperation Warrensburg fouls, and Ellis calmly steps to foul line and cashes in on the gift shot. Only a minute left to play. With a three point lead the game is on ice but "Hickory" Leech flips the ball from an impossible angle, a swish of the meshes, two more points and the game is tucked away. The Bearcats get down the court and play "catch" until the whistle blows.

The fans are unanimous that it was one of the best games ever played on a Maryville Court. The Bearcats redeemed themselves and played every minute of the game. The closer the score the hearder they fought. Stars were hard to find for every man played his best. Miller showed his grit by keeping up the pace with his leg paining him at every move. Leech was the important cog in the scoring machine, chalking up six field goals. Bloomfield, who substituted for Brown at center, showed promise in his work and tallied once from the field. Kirby hit his stride, and played defense in old time form, with one long shot to his credit. Ellis was a bulwark of defense in danger territory with his floor work outstanding.

The box scores follow:

Pulling Teeth.

Owen McCarthy, a recent arrival from the Emerald Isle, had spent a torturing day with a toothache. After he had finished his work toward evening, he beat his way to the nearest dentist and impatiently inquired of the extractor of molars.

"How much does yez charge fer pullin' out wan tooth?"

"Fifty cents; seventy-five cents with gas."

Sivinty-five cints with gas!" grasped Owen. Bedad, thin, I'll come round agin early in the mornin' when it's day-light."—From Everybory's Magazine for February.

REAL ESTATE DEALS IN HOLT COUNTY FELL OFF

Total Value Declines Over $3,000,000 During 1922

Oregon, Mo., Jan. 29—Real estate transactions in Holt county were not as active during 1922 as they were in 1921. There was a decline in the aggregate warranty deals of $175,000 as compared with 1921, and a decline of the enormous sums of $3,517,883 when compared with the boom year of 1920, when the deals totaled the unprecedented figures of $4,885,946 and $3,326,774 in 1919.

During the years from 1915 to the present time, aside from the years mentioned above, the realty transfers averaged very nearly the same figure, so that it can be said that in the real estate line the country is getting back to normalcy.

During the year, 1922, Missouri farmers received approximately $13,000,000 through the land banks of the federal farm loan system.

The biggest land deal of the year in Northwest Missouri was that of W. L. Carpenter to Russell I. Bilby, $1,521 acres in Union township, Holt county, for a consideration of $148,000.

The biggest sale under trust deed was that of J. H. Crist, in the Harmony neighborhood, for $97,380. During the year there were three hundred and sixty-eight real estate deals placed on record, the average value being $3,500. The average value of land transactions during the year 1921 was $3,866, and $6,926 in 1920.

E. Ballew of Stanberry spent the week-end in Maryville visiting friends.

Oakland Premier's Bred Sow Sale

35 Head Bred Sows and Gilts

TO BE HELD AT GRAY'S SALE BARN, HOPKINS, MO.,

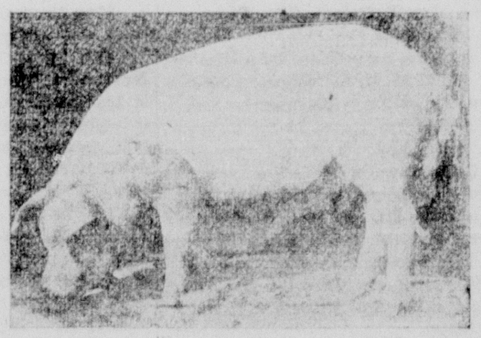
Saturday, February 3, 1923

Every Hog Has Received the Double Treatment for Cholera.

OAKLAND PREMIER, NO. 228905
(For Reference Only).
Farrowed Feb. 18, 1922. In litter 17.
Raised 9. Boars 6. Sows 3.
Bred by J. H. Harvey & Grandson, Maryville, Missouri.

Big Joe 2nd, 66691 { Big Joe, 45085
E. H. Kahl, April 8, 1918. { Shamrock Jessie 72334.

Rose Again, 190544 { Prince 32743
Henry Weeners, March 27, 1919 { White Rose 96342



Oakland Premier was the top hog out of 128 head at J. H. Harvey's last fall sale. He was pronounced by the Chester White Fieldman a real pig. He measures from the end of his nose to the end of his tail 70 inches, and stands 33 inches high. He is one of the life long productions of J. H. Harvey and with his ability to produce the right kind, I think he needs no further introduction.

There are many reasons why you should buy a sow bred to Oakland Premier.

FIRST—Because Oakland Premier is leading in popularity and quality.

SECOND—Because these gilts are the tops of what I raised this year as well as many are outstanding individuals.

THIRD—Because one good gilt is worth more than a dozen ordinary sows. Watch the man that buys the good gilts this winter.

FOURTH—Because these gilts have back of them the biggest animals in existance, linked together with the highest honors from the world's leading swine shows.

FIFTH—Because every effort was put forth to fit these gilts so as to make real producing mothers. Remember that four pigs out of every ten die from lack of proper feeding of the sows during pregnancy.

SIXTH—Because here is the kind that you will look at twice. It is not the amount of weight and fat, but the kind that counts.

DON'T expect a fancy catalogue. I am making a success of the hog business by applying conservative methods and putting my money into the production of the best hogs possible to obtain, instead of unnecessary expenditures. Phone or write for catalogue.

COME spend the day with me whether you buy or not. Out of town guests entertained at the Linville Hotel.

TERMS—Cash.

Sincerely,

T. F. Applegate

Who Gets the Job?

INCOME TAX IN NUTSHELL

Who? Single persons who had net income of $1,000 or more or gross income of $5,000 or more. Married couples who had net income of $2,000 or more or gross income of $5,000 or more.

When? March 15, 1923, is final date for filing returns and making first payment.

Where? Collector of internal revenue for the district in which the person lives or has his principal place of business.

How? Full directions on Form 1040A and Form 1040; also the law and regulations.

What? Four per cent normal tax on taxable income up to $4,000 in excess of exemption. Eight per cent normal tax on balance of taxable income. Surtax from 1 per cent to 50 per cent on net incomes over $6,000 for the year 1922.

Income Tax Facts

Arrival of the period for filing income tax returns—January 1 to March 15, 1923—presents to American citizens and residents the question "Am I required to file a return?" and "How shall I be assured of making a correct return?"

To every person who last year filed a return will be sent a form for making a return of income for the year 1922—Form 1040A for reporting net income of $5,000 and less, and Form 1040 for reporting net income in excess of $5,000. Careful study of the instructions on these forms will solve many difficulties which, at first glance, may seem perplexing.

As a further aid, the Bureau of Internal Revenue has prepared a series of newspaper statements based on the latest rulings and decisions governing the administration of the revenue act. Answers to the questions, which from the bureau's correspondence during the last year appear perplexing, will be presented daily. Taxpayers are advised to preserve these articles as they appear, in order that when they begin preparation of their returns they may have before them a comprehensive summary of the requirements of the revenue act.

The tax is imposed upon net income which is gross income less certain specified deductions for business expenses, losses, bad debts, etc., to be fully explained later. Single persons may subtract from net income, before calculating the normal tax, an exemption of $1,000. The exemptions for married persons and heads of families are $2,500 on incomes of $5,000 or less and $2,000 on incomes in excess of $5,000.

Taxpayers are allowed, also, an additional credit of $400 for each person dependent upon them for chief support, if such person is under 18 years of age or incapable of self support because mentally or physically defective.

Requirement to file an income tax return rests upon every single person whose net income for 1922 was $1,000 or more or whose gross income was $5,000 or more and upon every married person whose net income was $2,000 or more or whose gross income was $5,000 or more, regardless of whether or not the income is taxable For example a man and wife with two children 12 and 14 years old had a net income for 1922 of $2,700. Their exemptions and credits amount to $3,-3000. A single man whose net income was $1,800 supports in his home an aged mother. His exemption is $2,500 as the head of a family, plus a $400 credit for a dependent. In both cases returns must be filed though the incomes are not taxable.

Produce Review.

Comparison of butter prices on "Standards" as quoted on the Chicago market, shows the price on Jan. 26 to be 43 per cent higher than a year ago. This is quite remarkable, when total production is so much greater than last year.

The American Association of Creamery Butter Manufacturers reports an increase of 21.7 per cent in the make, for the week ending January 20, as compared with the same week in 1922. Increase in the volume of butter resulted in an easier tone, and selling prices are a little lower than last week. There is every indication of continued larger receipts, and no doubt, this will be reflected in the market conditions.

A great deal of time and study is being given to the question of cream quality. While the total production of butter is greater, the percentage of higher scoring butter is not keeping pace with production. Many states are about to conduct a grading demonstration to show the producer just what is necessary to produce better cream.

Stocks of eggs remaining in storage in Chicago, New York, Boston and Philadelphia, as shown by the U. S. Department of Agriculture report of January 24, were as follows:

Chicago	99,000 cases
New York	95,000 cases
Boston	29,000 cases
Philadelphia	23,000 cases
	246,000 cases
as compared with on the same day last year.	182,000 cases
Excess or 35 per cent.	64,000 cases

These eggs are selling at a loss that will be long remembered.

Fresh eggs are reaching the consuming markets in increasing quantities, due to favorable weather in producing sections, and prices are lower than a week ago, with an easy tone at the close. Heavier receipts are expected to reach the markets next week.

INCREASE IN NUMBERS

Farmers of Nodaway County Have 19,540 Sheep—Missouri Farmers Have 9,434,000 Head of Live Stock.

Jefferson City, Mo., Jan. 29—Missouri farmers now have 9,434,000 head of live stock on farms compared to 8,872,000 or 562,000 more than January, 1922, according to E. A. The increase in numbers and value is in cattle, sheep and hogs. Jacks, jennets and goats are not included.

Missouri farmers have 870,000 horses again 879,000 in January, 1922. The number of horses has been decreasing for several years, and prices remain as last year with sales slow. Fewer colts will be foaled in 1923 than in 1922. The total value of Missouri horses is $45,240,000 against $45,708,-000 last year.

Missouri mules total 373,000 head against 377,000 last January; the average price of all ages is $63 per head, compared to $65 last year and $94 in 1921. Mules are more in favor than horses. The total value of Missouri mules is $23,499,000 against $24,-505,000 last January.

Milk cows on Missouri farms number 777,000 against 769,000, January, 1922, and this is an increase of 1 per cent. Milk cows have increased in most of the counties excepting the east and south central sections affected by serious drouth last summer. The average value per head is $45 against $44 last year, and $57 in 1921. The total value is $34,965,000 compared to $33,836,000 last year.

Other cattle than milk cows number 2,003,000 against 1,890,000 for 1922. Large numbers of stockers and feeders and some breeding stock have been shipped into Missouri from the stockyards and ranges during the past fall. A few of the south central Ozark counties have been well stripped of stock cattle on account of excessive drouth, and farmers are turning to dairy cows. The average values per head are $4 more than last year; the total value of other than dairy cattle is $56,224,000 against $50,085,000 last year.

Missouri farmers have 1,165,000 sheep compared to 1,042,000 in 1922. The increase has been due to more breeding stock, following better wool and mutton prices. The total value of Missouri sheep is $7,846,000 against $4,689,000 last year and $6,848,000 in 1921, sheep being the only class of live stock with a greater total value than two years ago.

Missouri farmers have 4,306,000 hogs compared to 3,915,000 a year ago. Hog raising has increased throughout most sections during 1922 and was greatest in the northern third where corn was good the past two years. The total value of all hogs is $42,199,-000 compared to $33,278,000 last year.

The total number of horses in the United States, January, 1923, is 18,-853,000 compared to 19,056,000 in 1922. Mules 5,506,000 against 5,467,000. Milk cows 24,429,000 and 24,082,000. All other cattle 41,923,000 compared to 41,550,000. Sheep 37,209,000 against 36,327,000; hogs 63,424,000 and 57,834,-000. Horses are the only class showing a decrease from last year.

Loren Schnabel, director of the High School orchestra, has issued a call for all musically inclined students who wish to try out for the spring contests.

The orchestras, choruses and glee clubs will all be cut down this year in order that the visiting music makers may be accommodated more easily.
